

Wedding Flower Inspiration

By Patty, March 20th, 200

note: I didn't take those pictures. I found them online as my inspiration for my wedding flower.

If you look at the photos, they are a lot of Calla Lilies, Lilies and Orchids. My wedding color is planning to have orange as an accent along with white and dark brown. So figure out what color you decide to use for your wedding first and then start picking out your flowers ☺
